HPS

High Performance Structures
Inovatie si Dezvoltare S.R.L.
ROMANIA

Vacancy:

PA Engineer

in Bucharest (Romania)

JOB PROFILE:

- Product assurance planning and implementation
- Quality assurance planning and implementation (including AIT&V quality assurance)
- Material, parts and processes assurance
- Safety assurance
- Establishing of a nonconformance control program
- Maintain quality records
- Monitoring of development activities
- Attractive renumeration
- Direct contact/report to Project Manager/Section Head.

WORKING IN:

- Secured projects for the next years (mainly with ESA as end-customer)
- Highly visible space flight programs (science, earth observation, exploration, technology)
- International teams (customers & subcontractors)
- Exceptional development opportunities.

QUALIFICATION:

- Constructive support in failure detection, failure mitigation and failure correction
- Technical background, basic understanding of technically project-involved disciplines
- Strongly independent function, however, close co-operation with key team
- Accurate but pragmatic performance of internal and external (e.g. supplier) project/process audits
- Good English skills, especially in writing (e.g. for PA Plans or concise NCRs and respective reports)
